**This is in answer to your DVV Query against metric 1.2.1 of Criterion 1 of the SSR:**

The HEI wishes to inform that the below mentioned certificate courses are not part of any course under the university curriculum. They have been designed keeping in mind the extension of the knowledge base of the students and tend to align more towards being value added courses. In response to the question raised in the DVV query of a few courses being more of vocational structure, the HEI would like to clarify that unlike the modules of Vocational courses, these courses have been designed keeping in mind:

- Imparting more of theoretical knowledge than practical knowledge unlike vocational courses
- Not part of any University prescribed curriculum
- Adds to the knowledge domain of the students and extends them

A few of the courses mentioned in the DVV query are purely theoretical in nature of their knowledge extension and has already been mapped with their respective core courses. The following courses are not part of any of the University curriculum and thus their modules are provided for mapping :
