30 hours duration Certificate Course

on "*Research Methodology in Social Science*"

Duration : 18/04/2022 – 28/04/2022 (30 hrs)

Course Outcome: The main objective of the course was to develop the research sense broadly so that some scientific ideas of doing a research can be provided to the students. This course tried to ensure to build a good researcher who would be methodologically literate and theoretically sound. As far as the idea of 'laboratory to land is concerned', this course helped our students to develop such ideas that can be used directly to meet different day-to-day socio-political-economic problems. At the same time, this course helped our students to know how to form research questions, how to identify research gap, how to read out a book, necessity of critical analysis, where lies the importance of methodology – all these things together can develop the entity of a good learner from the being of a student permanently and in long run this would be helpful for the academic environment.
